

IBM Networking
Softcopy Collection Kit
September 1995

SK2T-6012-13

Note!

Before using this information and the products it supports, be sure to read the general information in "Notices" on page xi.

Thirteenth Edition (September 1995)

This booklet applies to the IBM* Online Library Networking Softcopy Collection Kit, SK2T-6012-13.

Changes from the previous edition of this booklet are indicated by vertical bars in the left margin.

Requests for IBM* publications and additional copies of this kit should be made through your IBM representative or the IBM branch serving your locality. If you request CD-ROMs from the address below, your order will be delayed because CD-ROMs are not stocked there.

Reader's comment forms are provided at the end of book files on each CD-ROM. If you are unable to access this information, comments may be addressed to IBM Corporation, Department CGMD/Building 500, P.O. Box 12195, Research Triangle Park, NC 27709-2195, United States of America. You may optionally fax your comments to IBM using fax number (United States and Canada), 1 + 800 + 227-5088.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

Notices

References in this booklet and in the libraries contained on this kit, to IBM products, programs, or services do not imply that IBM intends to make these available in all countries in which IBM operates. Any reference to an IBM product, program, or service is not intended to state or imply that only IBM's product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any of IBM's intellectual property rights may be used instead. Evaluation and verification of operation in conjunction with other products, except those expressly designated by IBM, is the user's responsibility.

IBM may have patents or pending patent applications covering subject matter in this document. The furnishing of this booklet and of the information contained on this kit does not give you any license to these patents. You can send license inquiries, in writing, to the IBM Director of Commercial Relations, IBM Corporation, 500 Columbus Avenue, Thornwood, NY 10594, USA.

Using and Distributing the Library Reader

The terms and conditions for using and distributing the Library Reader are stated in a file called PLALRENG.AGR on these CD-ROMs. The file is in ASCII format and can be printed from your personal computer. The following examples assume that your CD-ROM drive letter is d. If your CD-ROM drive is not d, replace the letter in the example with the letter you are using. To print this file, insert either of the CD-ROMs into your CD-ROM drive and use the PRINT command with the drive letter of your CD-ROM drive. For example:

```
print d:\plalreng.agr
```

New Library Reader Service Levels

This CD-ROM collection kit contains the latest service levels of the following BookManager Library Readers:

- OS/2 (4/95)
- Windows (4/95)
- DOS (1/95)

If you have an earlier version installed, we recommend that you install these latest levels.

Using and Distributing the IBM Softcopy Receiver Tool

The terms and conditions for using and distributing the IBM Softcopy Receiver Tool programs are stated in a file called SCRTENG.AGR on these CD-ROMs. The file is in ASCII format and can be displayed or printed from your personal computer.

Copying and Distributing Softcopy Files

The terms and conditions for using softcopy books are stated in a file called BOOKENG.AGR on these CD-ROMs. Before using the books on the CD-ROMs, you must first read and agree to the terms and conditions specified in this file. The file is in ASCII format and can be displayed or printed from your personal computer.

README File for Library Reader for Windows

Before installing the BookManager Library Reader for Windows, consult the READWIN.TXTI file in the root directory on any of these CD-ROMs for important “late-breaking news” that you might need to know.

Trademarks and Service Marks

The following terms, denoted by an asterisk (*) when used in this booklet, are trademarks of the IBM Corporation in the United States and/or other countries:

- Windows (Microsoft Corporation)

About The Networking Softcopy Collection Kit

- I The IBM Networking Softcopy Collection Kit contains 156 communications product libraries. This allows you to put a large number of publications online without the inconvenience of handling individual product libraries on many CD-ROMs and tapes. This kit also includes IBM Networking Previews, which are interactive presentations that show you the benefits and features of 16 networking products.

Licensed Books on the Networking Collection Kit

The Networking kit contains licensed books for some products. The licensed books can be used only by users who have a license for the product. We use a feature called CD Showcase to lock the licensed books through the use of encryption codes. If you have a license for a product that has licensed books on this CD-ROM, you can get an access key from IBM to unlock them.

Files Contained on the Networking Collection Kit

The CD-ROMs contain the following files:

- Most of the unlicensed publications for each communications product on the CD-ROMs
- Licensed books for some products
- A pre-built bookshelf and a bookshelf search index for the entire set of communications products books on each CD-ROM, in addition to bookshelves and bookshelf search indexes for each product library, to enable quick searches of the books contained on the CD-ROMs
- A set of IBM Networking Previews.
- A set of reference publications for using the Library Readers and the online library
- README, which is an online version of this booklet in ASCII format, found in the root directory.

- C01CT000.BOO, which is the online version of this booklet in softcopy BOOK format, found in its own bookshelf (C01CBK00).
- An ASCII formatted file, CKITLIST.TXT, that lists all the IBM Softcopy Collection kits currently available, including the product libraries in each collection kit.
- A multimedia demonstration *Online Electronic Books: A New Alternative*, which introduces you to online books on CD-ROM; the IBM Online Library; creating your own online books; and the BookManager READ products for AIX, OS/2, and DOS workstations.

Notes:

1. All books on these CD-ROMs appear in the English language.
2. The book files on the CD-ROMs were created with BookManager* BUILD 1.2.0. You need either BookManager READ Version 1.2 (or higher) or the Library Readers furnished on these CD-ROMs to view them.

The CD-ROMs also contain the following items:

- The IBM SAA* BookManager Library Reader/2*, IBM BookManager Library Reader for Windows**, and IBM BookManager Library Reader/DOS*, which are *limited* editions of the IBM BookManager READ/2, READ for Windows, and READ/DOS licensed programs. The Library Readers let you read and search any IBM book specifically enabled by IBM for the Library Readers. Books distributed on CD-ROM by IBM beginning with the *IBM Online Library Starter Kit* will be enabled for the Library Readers.
- The IBM Online Library Installation Program to install the Library Readers, set up the BookManager or IBM Library book and bookshelf search path, and to write OS/2 Group entries or folder entries.
- The IBM Bookshelf Upload Program that lets you upload individual bookshelves of IBM books to an MVS or VM host from any host-attached PS/2* workstation.
- The IBM Softcopy Receiver Tool (SCRT), program number 5648-032. The SCRT allows you to select online bookshelves and books (softcopy publications) from a CD-ROM and transfer them to host DASD or a workstation hard disk. The host version runs on MVS and VM hosts; the workstation version runs on OS/2 and DOS workstations. The SCRT includes:

- An SCRT program for MVS, VM, OS/2, and DOS
- The *IBM Softcopy Receiver Tool User's Guide*, GC23-3663, available in softcopy on each CD-ROM.
- A READSCRT.TXT file that contains an abbreviated ASCII version of the *IBM Softcopy Receiver Tool Users 's Guide*, in the root directory of each CD-ROM.
- A BKSADD EXEC for MVS users.

The SCRT runs on an OS/2 or DOS LAN server as well as on individual OS/2 or DOS workstations. "Receiving Books and Bookshelves Using the SCRT" on page 178 contains instructions for using the SCRT on your workstation.

Organization of Files on The Collection Kit CD-ROMs

The Networking Softcopy Collection Kit is on three CD-ROM discs. We put the files on three discs to answer requests from a number of users of earlier versions of this collection kit to help them manage the softcopy library files. Because this kit is produced quarterly with new libraries and updates to existing libraries, many users want to know what is new and what has changed from the previous softcopy kit. We hope the packaging will help you better manage the softcopy files.

CD-ROM 1. Working Disc

This CD-ROM contains all of the directories and files you need to install the Library Readers and any other product-related installation files, the README and ASCII text files, the online BOOK file for this booklet, product multi-media previews, and all new product libraries and updates to existing product libraries (only the new and changed files that are different from what was on the previous quarterly collection kit).

CD-ROM 2. Archive Disc

This disc contains all of the currently supported NetView, NCP, and VTAM softcopy libraries that were included in previous quarterly collection kits and all the libraries that were new or updated on the previous version of this collection kit.

CD-ROM 3. Archive Disc

This disc contains all of the remaining currently supported Networking product softcopy libraries that were included in previous quarterly collection kits.

The contents of all three CD-ROMs are organized into: a root directory containing the text files BOOKENG.AGR, PLALRENG.AGR, SCRTENG.AGR, READSCRT.TXT, and README; a subdirectory \shelves containing all the bookshelf files; a subdirectory \books containing all the book and search index files.

Getting Started

To use these softcopy books on a personal computer or a PS/2 computer equipped with a CD-ROM disc drive (or attached to a network equipped with a CD-ROM disc drive), you must use one of the following:

- BookManager READ/DOS (Part No. 17H7383)
- BookManager READ for Windows V2 (Part No. 10H7605)
- BookManager READ/2 (Part No. 17H7375)
- Library Reader/DOS (included on these CD-ROMs)
- Library Reader for Windows (included on these CD-ROMs)
- Library Reader/2 (included on these CD-ROMs)

Instructions for installing these readers are in the section “Installing or Updating the IBM Library Readers for OS/2 and DOS” on page 162.

To use the softcopy books on an MVS system, you must transfer the files from the CD-ROMs to MVS using the IBM Softcopy Receiver Tool, the IBM Bookshelf Upload Program for MVS, or any

file transfer utility that supports both ASCII and binary file transfer to MVS. You must use IBM BookManager READ/MVS (Program No. 5695-046) to read them.

To use the softcopy books on a VM system, you must transfer the files from the CD-ROMs to VM using the IBM Softcopy Receiver Tool, the IBM Bookshelf Upload Program for VM, or any file transfer utility that supports both ASCII and binary file transfer to VM. You must use IBM BookManager READ/VM (Program No. 5684-062) to read them.

Note: If you have already installed SCRT Version 1.0 or 1.1 on MVS or VM, you should reinstall SCRT that is included on these CD-ROMs. The updated version of SCRT has been improved. See the READSCRT.TXT file on the CD-ROMs for installation instructions.

For information about software and hardware requirements for OS/2, Windows, and DOS workstations and directions for transferring the contents of CD-ROMs to a host, see *IBM Online Libraries: Softcopy Collection Kit User's Guide*, GC28-1700, and *IBM Online Library: Getting Started and Managing the Library*, GC23-0545, included on any of these CD-ROMs.

For more information on the BookManager READ programs or on determining the appropriate CD-ROM drive for your system, contact your IBM representative or the IBM branch office serving your locality.

To use the IBM Networking Previews, you must have:

- A 486 PS/2 (or compatible) equipped with a CD-ROM disc drive or attached to a network equipped with a CD-ROM disc drive

Note: You can use a 386 PS/2, but animation sequences will be slower.

- Either IBM OS/2* Version 2.1 or Microsoft Windows** 3.1 installed
- 8 MB RAM or higher
- A VGA monitor, keyboard, mouse

These fonts should already be installed on your PC:

- Times New Roman in Regular, Bold, and Bold Italic; 10 point to 54 point
- MS Sans Serif in Regular and Bold; 8 point to 12 point

BookManager Tutorial (Disc 1)

You can learn about BookManager READ/DOS using the tutorial included on CD-ROM Disc 1. The tutorial requires DOS Version 3.3 or later.

- 1** At the DOS prompt, change to the letter of your CD-ROM drive. For example, if it is D, type: `d:`
- 2** Change to the subdirectory that contains the tutorial. Type: `cd \tutor`
- 3** Start the tutorial. Type: `tutor`

BookManager Online Books Demonstration (Disc 1)

CD-ROM Disc 1 contains a multimedia demonstration called *Online Electronic Books: A New Alternative*. This demonstration introduces you to:

- Online books on CD-ROM
- The IBM Online Library
- The BookManager READ products for workstation
- Creating your own online books

The introduction to the BookManager READ products offers you a particularly helpful tutorial that shows you how to use the BookManager READ/2 and READ/6000 products.

What Kind of Workstation Do You Need to Run This Demonstration?

This demonstration is designed to work with the following software and hardware. If your workstation meets these requirements, you can go to "How to Start The Demonstration" on page 7 and prepare to run the demonstration.

Required Software for OS/2

- IBM Operating System/2* (OS/2) Standard Edition (SE), Version 1.3 or higher, or IBM Operating System/2 (OS/2) Extended Edition (EE), Version 1.3 or higher
- IBM DOS Release 3.3 or higher

Required Software for DOS

- IBM DOS Release 3.3 or higher

Required Hardware

- Any 386 or 486 workstation that runs the required software
- A Video Graphics Adapter (VGA) or equivalent
- A minimum of 512KB of memory (in addition to the memory required by the edition of OS/2 or DOS you are using)
- A CD-ROM drive and the equipment needed to attach it to your workstation
- A mouse

How to Start The Demonstration

To run this demonstration, do the following:

1 Remove CD-ROM Disc 1 from its protective case.

2 Insert CD-ROM Disc 1 in the CD-ROM drive.

If you are not sure how to use your CD-ROM drive, refer to its instruction manual to learn how to insert CD-ROMs correctly.

3 Go to a command prompt.

For OS/2:

Go to the DOS command prompt in a DOS full-screen session.

For DOS:

Go to the DOS command prompt.

4 Switch to the drive letter of the CD-ROM drive that now contains the CD-ROM. For example, if this CD-ROM drive is D, type:

d:

If you have more than one CD-ROM drive, you can use any one of them.

5 Change to the directory on the CD-ROM that contains the demonstration. Type:
cd \bkmdemo

6 To start the demonstration, type the following:

For 386 workstations:

start386

For 486 workstations:

start486

The IBM logo appears on your screen. The logo will disappear. Several introductory screens will appear. Wait for instructions. When they appear on your screen, follow the instructions to continue with the demonstration.

Program License Agreement for an IBM Preview

This is an IBM license agreement for an IBM preview. The Program contains the following restricted materials:

- ToolBook(TM) runtime files copyright Asymetrix(TM) Corp.
- A ToolBook book file copyright IBM Corp.

This Program is licensed, not sold. International Business Machines Corporation, or the applicable IBM country organization, grants you a license for the Program only in the country where

you acquired the program. You obtain no rights other than those granted to you under this license.

The term "Program" means the original and all whole or partial copies of it, including modified copies or portions merged into other programs. IBM retains title to the Program. IBM owns, or has licensed from the owner, copyrights in the Program.

You are responsible for the selection of the Program and for the installation of, use of, and results obtained from, the Program.

1. License

Under this license, you may:

- a. Use the Program on only one machine at any one time, unless otherwise noted
- b. Copy the Program for backup

You may not:

- Use, copy, modify, merge, or transfer copies of the Program except as provided in this Agreement;
- Reverse assemble or reverse compile the Program; or
- Sub-license, rent, lease, or assign the Program.

2. Limited Warranty

This program is provided "as is" without warranty of any kind, either express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. The entire risk as to the quality and performance of the Program is with you. Some states, provinces, and other countries do not allow the exclusion of implied warranties, so the above exclusion may not apply.

IBM does not warrant that the functions contained in the Program will meet your requirements or that the operation of the Program will be uninterrupted or error free.

However, IBM warrants the media on which the Program is furnished, to be free from defects in materials and workmanship under normal use.

3. Limitation of Remedies

IBM's entire liability and your exclusive remedy shall be:

- a. The replacement of any diskette or CD-ROM not meeting IBM's "Limited Warranty" on the media and which is returned to IBM or
- b. If IBM is unable to deliver a replacement diskette or CD-ROM which is free of defects in materials or workmanship, you may terminate this Agreement by returning this Program.

In no event will IBM be liable for any lost profits, lost savings, or any incidental damages or other economic consequential damages, even if IBM has been advised of the possibility of such damages, or for any damages claimed by you based on any third party claim.

The limitation of remedies described in this Section also applies to any developer of a Program supplied to IBM. IBM's and the developer's limitations of remedies are not cumulative. Such developer is an intended beneficiary of this Section.

Some jurisdictions do not allow the limitation or exclusion of incidental or consequential damages so the above limitation or exclusion may not apply to you.

4. General

You may terminate your license at any time. IBM may terminate your license if you fail to comply with the terms and conditions of this Agreement. In either event, you must destroy all your copies of the Program.

You are responsible for payment of any taxes, including personal property taxes, resulting from this license.

Neither party may bring an action, regardless of form, more than two years after the cause of action arose.

If you acquired the Program in the United States, this license is governed by the laws of the State of New York. If you acquired the Program in Canada, this license is governed by the laws of the Province of Ontario. Otherwise, this license is governed by the laws of the country in which you acquired the Program.

5. Asymetrix Runtime License

Portions of this product are copyright (C) by Asymetrix Corporation. All rights reserved. This software is a licensed, published work under the copyright laws of the United States and foreign countries. Use, disassembly, and reproduction of this software is restricted by your license and by worldwide copyright laws. Use, duplication, or disclosure by the U.S. Government is subject to restriction as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 (Oct. 1988) and FAR 52.227-19 (June 1987). This pertains to all products of Asymetrix Corporation, 110 110th Avenue Northeast, Suite 700, Bellevue, Washington, 98004.

Contents of the IBM Networking Collection Kit

These CD-ROMs contain pre-built books, a bookshelf for each product library (some books are included in more than one product library), and bookshelf search indexes. The main bookshelf on each disc lists all of the books on that specific disk.

To select a book from the collection, we recommend you list the main bookshelf, list all the bookshelves, or list a specific bookshelf and select the book from this list.

Note: You can create a customized bookshelf that contains only the books you use most frequently. For information on creating a customized bookshelf, refer to *Softcopy Collection Kit User's Guide*, GC28-1700, on any of these CD-ROMs or the documentation you received with your BookManager program.

CD-ROM Disc 1 also contains IBM Networking Previews.

Updates for this Collection Kit CD-ROM

This collection kit replaces the IBM Networking Softcopy Collection Kit, SK2T-6012-12. The following lists indicate what has been added, changed, and removed. All of the additional (new) libraries and the existing libraries with changes are on Disc 1.

| Additions to the Collection Kit (Disc 1)

Product Libraries Added	Filename
Asynchronous Transfer Mode	E2J0BK00
CallPath Server/2 V1R1 and V1R1.1	DDEZBK00
DFSMS/MVS Network File System V1R2	DGTNBK01
Distributed Console Access Facility V1R3.1	EQN0BK03

Product Libraries Added	Filename
Ethernet Adapters	E2R0BK00
LAN Support Program V1.3	E200BK00
NetView Distribution Management Agent for NetWare V1R1	FNWABK00
NetView Distribution Manager/2 V2R1.1	ANX0BK06
NetView for AIX V4R1	CO00BK07
NetView for MVS V3	CNMYBK08
NetView for MVS V3 Licensed Books	CNMYLB01
NetView for Windows V2	INE0BK01
NetView Remote Operations V1R1	FNA0BK00
Network Design and Analysis/2 V1R3	ACW0BK03
NTuneMON V2R1	ATU0BK02
NTuneMON V2R1 Licensed Books	ATULBK01
Personal Communications V4.0	CPC0BK00
Token-Ring Adapters	E2Q0BK00
Turboways Adapters	F0A0BK00
Turboways 8282 ATM Workgroup Concentrator	E2M0BK00
WaveRunner	E2T0BK00
Wireless LAN Entry	E2S0BK00
Wireless Modems	E2K0BK00
5494 Remote Control Until R3.1	CO20BK04
8230 Token-Ring Network Controlled Access Units	D590BK00
8235 Dial In Access to LANs Servers	E2P0BK00
8281 ATM LAN Bridge V1R1	E2L0BK00

I Changes on the Collection Kit (Disc 1)

Product Libraries Updated	Filename
I AIX SystemView NetView/6000 V2R1	CO00BK06
I AnyNet Workstation Products	IPH0BK06
I APPC Networking Services for Windows V1	ANW0BK02
I Communications Manager/2 V1 (removed programming references)	CO60BK05
I Communications Manager/2 V1.11 (removed programming references)	CO60BK06
I Credit Card Adapters	BK20BK02
I LAN Technical Reference	BK80BK01
I NetView Distribution Management Agent for HP-UX V1R1	FNDHBK01
I NetView for OS/2 V2	ANV0BK02
I Networking Architectures Overview	D500BK07
I SystemView Automated Operations Control/MVS V1R2	AOFR205
I SystemView Automated Operations Control/MVS V1R4	AOFR401
I VTAM V4R1 for MVS/ESA (moved Estimating Storage for VTAM V4R1 into library)	IST0BK12
I VTAM V4R2 for MVS/ESA, VM/ESA, VSE/ESA	IST0BK13
I VTAM V4R3 for MVS/ESA	IST0BK14
I VTAM V4R3 for MVS/ESA Licensed Books (updated bookshelf and index title)	ISTLBK05
I 2217 Nways Multiprotocol Concentrator	E2G0BK01
I 3172 Interconnect Controller	BK90BK04
I 6611 Multiprotocol Network Processor	CO70BK04
I 8222 Hub	D510BK01
I 8271 Ethernet Adapters	AWA0BK01

| Removals from the Collection Kit

 Product Libraries Removed	Filename
AIX NetView/6000 V1 (no longer supported)	CO00BK00
Distributed Console Access Facility V1.21 (no longer supported)	EQN0BK01
NetView V2R2 (no longer supported)	CNMYBK00
NetView for Windows V1R1 (replaced with V2)	INE0BK00
NetView MultiSystem Manager MVS/ESA V1R1 (no longer supported)	FLC0BK00
NetView MultiSystem Manager MVS/ESA V1R2 (no longer supported)	FLC0BK02
Network Design and Analysis V1R2 (replaced with V1R3)	ACW0BK02
OSI Communications SubSystem/400 V1R1 (no longer supported)	QBKABK01
OSI Communications SubSystem/400 V2R3 (no longer supported)	QBKABK03
OSI File Services/400 V2R3 (no longer supported)	EH11BK00
TCP/IP for OS/2 V1.2.1 (no longer supported)	EAL0BK01
VTAM Storage Estimates V4 (books merged into respective libraries)	BK30BK01
5494 Remote Control Unit R3 (replaced with R3.1)	CO20BK03

This collection kit includes the IBM Online Message Facility (OMF) which is an OS/2 program that provides online access to information from BookManager softcopy books. OMF is located on Disc 1. The facility helps network operators and system programmers diagnose problems without interrupting their tasks. For information about using and installing OMF, refer to "Installing the Online Message Facility (Disc 1)" on page 181.

IBM Networking Product Previews (Disc 1)

Disc 1 of this kit also includes 17 IBM Networking Previews which are interactive presentations using text, graphics, and animations to illustrate the key benefits and features of several networking products. See "Installing the Previews (Disc 1)" on page 188 for installation information.

Each of the 16 Previews listed below contains an overview of a specific product and details of new features in the latest release. It also describes how the product may be used with other IBM

and non-IBM products, the preparation and requirements needed for the product, and the support and services provided by IBM.

- AIX NetView/6000 TMN Support Facility
- AnyNet Preview
- CICS OS/2 Preview
- Communications Manager/2 Preview
- Distributed Console Access Facility V1.3 Preview
- IBM 6611 Network Processor and the Multiprotocol Network Program Preview
- Mediation System/6000
- Multiprotocol Intelligent Hub
- NetView DM Family Preview
- NetView Preview
- NetView MultiSystem Manager MVS/ESA Preview
- Network Door/2
- TCP/IP for DOS Version 2.1.1
- TCP/IP for MVS Version 3
- TCP/IP for OS/2 Version 2
- VTAM Preview

The twentieth Preview is titled "IBM Networking Overview." Also using text, graphics, and animations, this interactive presentation covers the Networking Blueprint, new technologies, networking solutions, protocols, and services.

Using CD Showcase to Unlock Licensed Books on this Kit

This collection kit contains a feature called IBM CD Showcase. Showcase allows us to lock the licensed books through the use of encryption codes. Using this feature, we can package licensed books on the same CD with a number of other related product softcopy libraries, many of which do not have licensed books. If you are an IBM customer with a license for a product that has licensed books on this CD, you can get an access key from IBM to unlock them. A separate key is required for each licensed-book library.

The CD Showcase booklet that comes with this collection kit will help you use Showcase. When you open Showcase, you are guided by a series of interactive notebooks that help you:

1. Set up your workstation to store the access keys for the licensed book libraries on the CD
2. Select the licensed books you want from the licensed book catalog
3. Contact IBM to get an access key for each of the libraries you select
4. Unlock the licensed books

Each product in this collection with licensed books in its library has a bookshelf in Showcase for just its licensed books. These licensed bookshelves are in addition to the bookshelves that contain the other unlicensed books in the product libraries.

Once the access keys you receive from IBM are stored on your workstation and the books are unlocked, you can view the books directly from the CD through Showcase. You can also download the licensed bookshelf to your workstation hard drive and add the licensed books to the product library (unlicensed books) bookshelf. You do not need a key to view the unlicensed books either inside or outside Showcase.

Licensed Libraries on this Kit (Disc 1, Disc 2, and Disc 3)

The following licensed-book bookshelves are on Disc 1 of this kit:

- **NetView for MVS V3 (5655-007)**
- **NTuneMON V2R1 (5648-141)**
- **VTAM V4R3 for MVS/ESA (5695-117)**

The following licensed-book bookshelves are on Disc 2 of this kit:

- **NCP V7R2 (5648-063)**
 - Including SSP V4R2 (5655-041) and EP R12 (5735-XXB)
- **NCP V7R3 (5648-063 for MVS and VM)**
 - Including SSP V4R3 (5655-041 for MVS and 5654-009 for VM) and EP R12 (5735-XXB)
- **NetView V2R4 (5685-111)**
- **VTAM V4R1 for MVS/ESA (5695-117)**
- **VTAM V4R2 for MVS/ESA (5695-117)**
- **VTAM V4R2 for VM/ESA (5654-010)**
- **VTAM V4R2 for VSE/ESA (5686-065)**
- **X.25 NPSI V3R8 (5688-035)**

The following licensed-book bookshelves are on Disc 3 of this kit:

- **NTuneNCP V1R1 (5648-089)**
- **NetView Network Planner/2 V1R1.1 (5622-167)**
- **TCP/IP for MVS V3R1 (5655-HAL)**
- **X.25 NPSI V3R7 (5688-035)**

For more details about these libraries, look in the *IBM Networking Product Libraries* section of this booklet.

IBM Networking Product Libraries

This section lists, by product, the bookshelf, bookshelf search index, and book files contained on these CD-ROMs. A letter code in the first column of the table identifies files that are new or have changed since they were last distributed on other CD-ROMs (including the *IBM Online Library Starter Kit*). If more than one code applies, the code with the highest priority is shown.

If the column is blank, the bookshelf, bookshelf search index, or book was on the previous Networking Collection Kit and has not been changed. The codes, highest priority listed first, are:

- N** New (first time the softcopy book is available)
- T** Technical change (new or changed information about the product)
- S** Service change (new or changed information that is not the result of a change to the product, e.g., information added as result of reader's comment)
- E** Softcopy enhancement (modification of source files to facilitate BookManager features).

For a complete description of technical and service changes, see the "Summary of Changes" section within each book.

The approximate size of each file is shown in megabytes. The table and formulas in "Estimating Host DASD Storage Requirements" on page 161 help you convert megabytes into tracks and cylinders.

IBM Networking Collection Kit Bookshelves

All-Networking Collection Disc 1 Bookshelf (Disc 1)

Title	Filename	Mb
Networking CD-ROM Disc 1 All Books Bookshelf	C01DK104	0.04
Networking CD-ROM 1 All Books Bookshelf Search Index	C01DK104	37.10
All books on Disc 1	N/A	321.82
Total Size		358.96

All-Networking Collection Disc 2 Bookshelf (Disc 2)

Title	Filename	Mb
Networking CD-ROM Disc 2 All Books Bookshelf	C01DK204	0.02
Networking CD-ROM Disc 2 All Books Bookshelf Search Index	C01DK204	32.07
All books on Disc 2	N/A	226.53
Total Size		258.62

All-Networking Collection Disc 3 Bookshelf (Disc 3)

Title	Filename	Mb
Networking CD-ROM Disc 3 All Books Bookshelf	C01DK301	0.04
Networking CD-ROM Disc 3 All Books Bookshelf Search Index	C01DK301	39.97
All books on Disc 3	N/A	334.44
Total Size		374.45

Note: The MByte size information was not available at time of printing. The above sizes are estimates.

The licensed books on this collection kit are not contained in the master bookshelves and search indexes.

AIX LAN Management Utilities/6000 V1R1 (Disc 3)

Estimating Host DASD Storage Requirements

Use the following table and formulas to determine the approximate number of tracks or cylinders needed to upload files to host direct access storage devices.

Device	MB per Track	MB per Cylinder
3380	.040	.600
3390	.048	.720
9340	.040	.600

Formulas:

1. Mb to upload = Mb of books + Mb of bookshelves + Mb of search indexes
2. Approximate tracks = Mb to upload ÷ Mb per track
Approximate cylinders = Mb to upload ÷ Mb per cylinder

Installing or Updating IBM Library Readers on Your Workstation

This section describes how to install or update the following IBM Library Readers on your PC workstation:

- IBM SAA BookManager Library Reader/2 (READ/2)
- IBM BookManager Library Reader/DOS (READ/DOS)
- IBM Bookmanager Library Reader for Windows (READ for Windows).

Installing or Updating the IBM Library Readers for OS/2 and DOS

The Networking Softcopy Collection Kit CD-ROM Disc 1 includes an installation program to help you set up an IBM Library Reader for OS/2 or DOS. The installation program installs the Library Reader for the first time on your hard disk and updates your system configuration files to point to the IBM books in your first collection. If you already have the Library Reader installed or if you have BookManager READ/2 or READ/DOS, and you are adding a new collection of IBM books, the installation program will update your configuration files to point to the new collection.

Note: If you want to install both the OS/2 and DOS versions of the Library Reader on your workstation, complete the preparations and installation procedures for OS/2 first, then install the DOS version.

If you are using MicroSoft Windows**, you must exit Windows** before executing the DOS Library Reader installation program.

For information on how to transfer the Library Reader to workstations without CD-ROM drives, see *IBM Online Library: Getting Started and Managing the Library*, GC23-0545, included on this CD-ROM.

Installing or Updating from a CD-ROM

The Library Reader installation program installs the Library Reader on your hard disk and updates your configuration files to point to the IBM books in the collection. To run the install program, do the following:

- 1** Insert the Networking CD-ROM Disc 1 in the drive by doing one of the following:
 - If you are using a CD-ROM drive that requires a caddy, such as the IBM 3510, do the following:
 - a.** Make sure that the CD-ROM drive is turned on.
 - b.** Open the CD-ROM caddy by squeezing the tabs on each corner of one end of the caddy and lifting the cover.
 - c.** Place the CD-ROM in the caddy so that the printing shows through the clear plastic cover.
 - d.** Close the cover. Make sure that the CD-ROM is not caught under the cover.
 - e.** With the cover facing up, insert the caddy into the CD-ROM drive. The arrow on the caddy points into the drive.
 - If you are using a CD-ROM drive that does not require a caddy, simply insert the CD-ROM into the drive, usually with the printing up.
 - If you are not sure how to use your CD-ROM drive, refer to the instruction manual that came with it to learn how to insert CD-ROMs correctly.
- 2** Go to an OS/2 or DOS command prompt to install the OS/2 or DOS version of Library Reader respectively. If you want to install both versions, follow these instructions to install the OS/2 version first, then return here and install the DOS Version.
- 3** Switch to the drive letter of the CD-ROM drive that contains the Library Reader program. For example, if your CD-ROM drive is D, type:
d:

4 Change to the directory on the CD-ROM that contains the Library Reader program. Type:
cd \ez2inst

5 To start the Library Reader installation program, type:
install
Panel 1 should appear on your screen

If you get this message:

SYS1059: The system cannot execute the specified program.

and you are using OS/2 Version 1.3 or lower, you may not have the most recent CD-ROM device driver. Go to step 1 in "Installing the Latest IBM CD-ROM Driver on an OS/2 Workstation" on page 175 and follow those instructions.

6 After reading Panel 1, press PgDn.

7 On Panel 2, make a selection that applies to your workstation. Type the number of your selection if you need to, and press PgDn to continue.

8 On Panel 3, do the following:

- a. Type the drive letters for any drives on which you plan to put IBM books or collections from the IBM Online Library. The drives you can select from are listed at the top of the screen. You can include your CD-ROM drives, your hard disks, or your diskette drives.
If you need help with this item, move the cursor to it, and press F1 for more information.
- b. Make sure that the directory named is correct.
If you need help with this item, move the cursor to it, and press F1 for more information.
- c. Make sure that the configuration file or profile named is correct.

If you need help with this item, move the cursor to it, and press F1 for more information.

- d. When you are satisfied that this panel is correct, press F10 to install the Library Reader or to update your Library Reader or BookManager READ.

9 When the installation program is done, the instructions on the screen will tell you either to shut down and restart your system or to start the Library Reader or BookManager READ.

If you do not need to shut down your system, you can continue with “Opening the IBM Online Library” on page 171.

If you must shut down and restart your system, do one of the following:

For OS/2 Version 1.3:

- a. Go to your Desktop Manager window, and on the action bar, select Desktop.
- b. In the window that appears, select Shutdown....
- c. In the Shutdown window that appears, select Shutdown.
- d. When the shutdown is complete, restart your system by pressing Ctrl+Alt+Del.
- e. When your system is running again, continue with “Opening the IBM Online Library” on page 171.

For OS/2 Version 2.0:

- a. Click on your desktop (an unoccupied part of the screen).
- b. In the window that appears, select Shutdown
- c. When the shutdown is complete, restart your system by pressing Ctrl+Alt+Del.
- d. When your system is running again, continue with “Opening the IBM Online Library” on page 171.

For DOS:

- a. Press Ctrl+Alt+Del.

- b. When your system is running again, continue with "Opening the IBM Online Library" on page 171.

Installing or Updating the IBM Library Reader for Windows

You can use these instructions to install BookManager Library Reader for Windows for the first time on a workstation with Microsoft Windows installed. These instructions assume that your hard disk is C and that your CD-ROM drive is D. If they are not, substitute the drive letters you are using for the letters shown in the examples.

Note: If you have already installed the BookManager READ for Windows licensed program, you do not need to install the Library Reader for Windows. If you do not install the library reader, you should be sure that BookManager READ for Windows has the paths needed to find the books and bookshelves on this CD-ROM. To check the paths, start BookManager READ for Windows and select Options from the action bar. In the Options window, select Startup defaults. The Startup defaults window should contain the following paths:

D:\BOOKS;D:\SHELVES
C:\READWIN

To set up Library Reader for Windows on your workstation under Microsoft Windows, do the following:

1 Start Windows.

For OS/2 Version 2.1 workstations, do the following:

- a. Open the Command Prompts folder.
- b. In the Command Prompts folder, select the WIN-OS/2 icon.

For Microsoft Windows 3.1 workstations, do the following:

- a. Go to the DOS command prompt.

b. Type win.

2 Insert CD-ROM Disc 1 in the CD-ROM drive.

If you are not sure how to use your CD-ROM drive, refer to its instruction manual to learn how to insert CD-ROMs correctly.

3 Go to the Program Manager window and select File from the action bar.

4 In the pull-down window, select the Run... option.

The Run window will appear.

5 In the Run window, type the following:

d:\ilrwin\install

6 Select the OK button.

The message Please wait. Loading files... appears. Wait until the Install Library Reader for Windows 2.0 window appears with the Installation Instructions window already open.

7 Read the instructions in the Installation Instructions window.

8 After you have read the instructions, select the Continue button to continue, or select the Cancel button to end the installation.

If you selected the Continue button, wait until the Install window appears.

Notes:

- a. In the Install window, you can choose not to have your AUTOEXEC.BAT file automatically updated by the install program.
- b. If you already have a version of the Library Reader for Windows installed, the Installation Options window will appear instead of the Install window. You can choose to update the library reader that you have or to delete it.

9 In the Install window, select the OK button.

Wait until the Install - directories window appears.

10 In the Install - directories window, do the following:

- a. Select program files.

You do not need to select documentation. The Library Reader for Windows books are available in the Online Library Reference Bookshelf. You will also be able to select the User's Guide from the Library Reader's Help window. You must have any CD-ROM disc that contains the Library Reader for Windows books in your CD-ROM drive when you do.

Note: If you choose to install the documentation on your hard drive, be sure that the following path appears For the Startup Path for Bookshelves and Books when the Install options - startup defaults window appears later:

C:\BOOKS

- b. You can change the directory in which the program files are to be installed. The default is:

C:\READIBMW

If you want to change it, type your directory over the one shown.

- c. Select the Install button.

The Install - progress window appears. Wait while it shows the progress of the installation. When the installation is complete, the Install options - startup defaults window

appears. The startup defaults window should show the paths to the books and bookshelves and notes.

11 In the Install options - startup defaults window, do the following:

For the Startup Path for Bookshelves and Books:

- a. Add the paths for the \books and \shelves directories on your CD-ROM drive. For example:

D:\BOOKS;D:\SHELVES

If you have more than one CD-ROM drive, you can add the paths to them. You can also add the paths to your hard disk, if you plan to copy books there. For example, if your hard disk is C and a second CD-ROM drive is E, you can add the following:

D:\BOOKS;D:\SHELVES;C:\BOOKS;C:\SHELVES;E:\BOOKS;E:\SHELVES

- b. If Library Reader/DOS is also installed, this window will also show the paths that you defined for it. You should remove the path to the Library Reader/DOS books.

C:\READIBM

For the Startup Path for Notes:

- a. Make sure that the path for the notes directory is the same as the directory in which the program files were installed.
- b. If you have Library Reader/DOS installed, it will show this path:

C:\READIBM

You must change it to:

C:\READIBM\

- c. Select the OK button.

The Installation and Maintenance window appears. It indicates that the installation was a success. You do not need to remove the CD-ROM from the drive.

12 In the Installation and Maintenance window, select the OK button.

The Install Library Reader for Windows 2.0 window will reappear.

Note: If you do not have SHARE or another file locking program, a window that will install such a program will appear. Select the OK button in that window.

- 13** In the Install Library Reader for Windows 2.0 window, select the Exit button.
An icon for the Library Reader for Windows will appear in the Program Manager window.
- 14** Exit Windows.
- 15** Re-boot your system.
- 16** Restart Windows.
- 17** You are ready to use the IBM Online Library on your workstation, continue with the instructions in "Opening the IBM Online Library on a Windows Workstation" on page 172 in "Opening the IBM Online Library" on page 171.

Note:

If you had already installed BookManager READ for Windows and you just installed the Library Reader for Windows, the file associations for the books and bookshelves (files with extensions of .BOO and .BKS) that were made when you installed the READ for Windows product will be changed to the Library Reader. The file associations are made for the last BookManager program that you install. If you want to associate BookManager READ for Windows with these files, you must change the file associations back to READ for Windows.

Opening the IBM Online Library

After you finish with a Library Reader installation program (READ/DOS, READ for Windows, or READ/2), you are ready to open the IBM Online Library and use the Library Reader or BookManager READ to list the bookshelves on the CD-ROM, and select and view softcopy books.

Opening the IBM Online Library in an OS/2 or DOS Environment

Follow these procedures to view the libraries on Disc 1, Disc 2 or Disc 3.

1 Open the IBM Online Library.

For OS/2 Version 1.3 or Version 2.0

To start the Library Reader/2, go to an OS/2 command prompt, and type:

```
readibm /ds
```

To start BookManager READ/2, go to an OS/2 command prompt, and type:

```
bookmgr /s
```

For OS/2 Version 1.3 only:

Go to your Desktop Manager window and select IBM Online Library. When the Group - IBM Online Library window appears, select the library you want.

For OS/2 Version 2.0 only:

Open the IBM Online Library folder and select the library you want.

For DOS:

To start the Library Reader/DOS, go to a DOS command prompt, and type:

```
readibm *.bks
```

To start BookManager READ/DOS, go to a DOS command prompt, and type:

bookmgr *.bks

- 2 When the Library Reader or BookManager READ starts, it displays a WELCOME panel. Press ENTER to remove the WELCOME panel from the screen, and you will see a list of all the bookshelves that are available to you on the CD-ROM disc currently in your CD-ROM reader.

The list of IBM bookshelves may include:

- All the IBM bookshelves on any other drives to which you have access
- All your personal bookshelves, if you have customized the IBM Online Library and created your own personal bookshelves on your hard disk

Note: Depending on how you customized your bookshelves, the list may only show your personal bookshelves. For more information on customizing bookshelves, see the booklet *IBM Online Library: Getting Started and Managing the Library* in the Online Library Reference Bookshelf on any of these CD-ROMs.

- 3 You are now ready to begin viewing the books on this CD-ROM.

Opening the IBM Online Library on a Windows Workstation

- 1 Choose the CD-ROM you want (Disc 1, Disc 2 or Disc 3)

- 2 Insert the CD-ROM into the drive.

Note: Always be sure that you put an IBM Online Library CD-ROM in each CD-ROM drive before you start your BookManager Library Reader or BookManager READ to open the IBM Online Library.

- 3 Open the IBM Online Library. You can do one of the following:
 - **Using icons:**

- a. Go to the Program Manager window and select the icon for Library Reader for Windows or BookManager READ for Windows.
- b. In the Library Reader for Windows or BookManager READ for Windows window, select the icon for Library Reader for Windows or BookManager READ for Windows. Library Reader for Windows or BookManager READ for Windows starts, and displays an About ... window. The About ... window disappears from the screen, and you will see a list of all the bookshelves that are available to you. The list of IBM bookshelves may include:
 - All the IBM bookshelves on all the CD-ROMs in all your CD-ROM drives
 - All the IBM bookshelves on any other drives to which you have access
 - All your personal bookshelves, if you have customized the IBM Online Library and created your own personal bookshelves on your hard disk

Depending on how you customized your bookshelves, the list may only show your personal bookshelves.

Note: You may want to sort this list by title if the list is very long. You can select View on the action bar. A pull-down window appears. Select Sort ►. The Sort ► choice will open a pop-up window in which you can select the sort by title.

- c. Select a bookshelf.

The list of books in the bookshelf appears on the screen.

Note: You may want to sort this list by title if the list is very long. You can select View on the action bar. A pull-down window appears. Select Sort ►. The Sort ► choice will open a pop-up window in which you can select to sort by title.

- d. Select the book you want to view or search.

You are now ready to begin using the books on this CD-ROM. You can refer to *BookManager READ for Windows: User's Guide* in the Online Library Reference

Bookshelf on any of these CD-ROMs for instructions on using the Library Reader for Windows.

- **Using File Manager:**

- a. Go to the Main window and select the icon for File Manager.
- b. In the File Manager window, select a drive icon for a drive that contains books.
- c. In the list of directories for that drive, select a directory that contains books.
- d. In the list of files for that directory, select a book (*filename.BOO*) that you want to open.

Library Reader for Windows or BookManager READ for Windows starts, and displays as About ... window. The About ... window disappears from the screen, and you will see the book that you selected in the File Manager window.

You are now ready to begin using the books on this CD-ROM. You can refer to *BookManager READ for Windows: User's Guide* in the Online Library Reference Bookshelf on either CD-ROM Disc 1 or Disc 2 for instructions on using the Library Reader for Windows.

Installing the Latest IBM CD-ROM Driver on an OS/2 Workstation

If you received the following message when you started the Library Reader installation program, SYS1059: The system cannot execute the specified program.

you are probably using OS/2 Version 1.3 or lower, and have an IBM CDFS.IFS CD-ROM device driver dated earlier than 11-27-90. You need to update this device driver with the one provided on CD-ROM Disc 1.

Note: OS/2 Version 2.0 users already have an up-to-date CDFS.IFS file and should not do this.

Follow these instructions:

- 1 Look in your CONFIG.SYS file for the IFS= statement:

IFS=C:\OS2\CDFS.IFS

This statement tells you the path to your CD-ROM driver. In this example, the driver named CDFS.IFS is on the C hard disk in the \OS2 directory.

- 2 Verify that the CDFS.IFS file on your hard disk is older than 11-27-90. Type:

dir c:\os2\cdfs.ifs

- 3 If the date of the CDFS.IFS file on your hard disk is older than 11-27-90, copy it to a backup file. Type:

copy c:\os2\cdfs.ifs c:\os2\cdfs.bak

4 Copy the new CDFS.IFS file from the CD-ROM to your hard disk. Type:

```
copy d:\ez2inst\cdfs.ifs c:\os2
```

5 Then shut down and restart your system by doing the following:

- a. Go to your Desktop Manager window, and on the action bar, select Desktop.
- b. In the window that appears, select Shutdown....
- c. In the Shutdown window that appears, select Shutdown.
- d. When the shutdown is complete, restart your system by pressing Ctrl-Alt-Del.
- e. When your system is running again, go to "Installing or Updating from a CD-ROM" on page 163 and restart the Library Reader installation program.

Uploading Files from CD-ROM to an MVS or VM Host

You can upload complete bookshelves from the CD-ROM to an MVS or VM host system using the IBM Bookshelf Upload programs. A complete bookshelf includes all the books in the bookshelf, the bookshelf file, and the bookshelf search index. Directions for using the upload programs are in the section "Uploading Bookshelves and Associated Files to a Host" in *IBM Online Library: Getting Started and Managing the Library*, GC23-0545, included on CD-ROM Disc 1, Disc 2 and Disc 3.

Receiving Books and Bookshelves Using the SCRT

You can use the IBM Softcopy Receiver Tool (SCRT) (program number 5648-032), to select and receive online books and bookshelves from IBM CD-ROMs onto the hard disk in your OS/2 or DOS workstation or to DASD on your MVS or VM host.

For MVS and VM Hosts:

Install the SCRT on your host, then use it with Optical Media Attach/2 on a channel-attached PS/2 workstation. For installation instructions, see the READSCRT.TXT file in the root directory on either CD-ROM. For information on using the SCRT from your host, see the *IBM Softcopy Receiver Tool: User's Guide*, GC23-3663. An online version of this book is included on any of these CD-ROMs.

For OS/2 or DOS Workstations:

Do the following:

- 1** Insert the CD-ROM (Disc 1, Disc 2 or Disc 3) from which you want to receive books into your CD-ROM drive.
- 2** Change to the drive letter that contains the CD-ROM. For example, if the drive letter is D, type: `d:`
- 3** Change to the directory that contains the SCRT. Type: `cd \scrt`
- 4** Start the SCRT.

For OS/2:

Type: `ebrscrt2`

Note: Do not run the SCRT in more than one session at the same time on an OS/2 workstation.

For DOS:

Type: ebrscrt

The Setup Options window appears on your screen.

- 5 Follow the instructions in the Setup Options window and in the windows that follow it. If you need help, press F1.
- 6 After the SCRT receives the books you chose and you exit the SCRT, you can replace the CD-ROM in the drive with another CD-ROM.
- 7 Open the IBM Online Library.

The list of bookshelves will include the bookshelves you previously received in addition to the bookshelves on the CD-ROM currently in the CD-ROM drive.

Note: You must have transferred the books and bookshelves into a \BOOKS directory on a hard disk that is included in your BookManager book and bookshelf search path. If this directory is not in the search path, you can run the Library Reader Installation program to update your configuration file.

If you received books without their bookshelves, you can do one of the following:

- Add the books to an existing personal bookshelf
- Create a personal bookshelf for them
- Go to an OS/2 or DOS prompt and type the following to open the IBM Online Library and ask to see one of the books you received:

For a Library Reader:

Type: readibm *book-name*.boo

For an IBM BookManager READ:

Type: bookmgr *book-name*.boo

Note: If you have access to a large number of books, opening the IBM Online Library and asking to see **all** books and bookshelves may take a long time. IBM recommends

that you access books by listing bookshelves and then selecting the appropriate bookshelf to see the list of books.

For more complete information on using the SCRT, see the *IBM Softcopy Receiver Tool: User's Guide*, GC23-3663, available as an online book on CD-ROM Disc 1, Disc 2 or Disc 3.

Installing the Online Message Facility (Disc 1)

The Online Message Facility (OMF) is an OS/2 program that provides online access to information from BookManager softcopy books. The facility helps network operators and system programmers diagnose problems without interrupting their tasks.

While using OS/2, you can retrieve the descriptions of host messages by clicking on a message number in a Communications Manager emulator window. The Online Message Facility extracts the information that you selected, builds a series of search arguments, and passes those search arguments to BookManager READ/2 or the Library Reader/2. BookManager searches for the information you selected and opens the appropriate softcopy book to the description of that information.

Any book which provides a specially-coded MPT file in addition to the BookManager file can be accessed by OMF.

System Requirements

The Online Message Facility requires OS/2 V2.0 or higher, with either Extended Services V1.0 or Communications Manager/2 V1.0

One of the following versions of BookManager is also required:

- BookManager READ/2 V1.2.1b
- IBM Library Reader/2.

Online Message Facility Files

The Online Message Facility consists of the following files:

- OMF2.EXE
- CMMOMF.DLL
- OMFDLL.DLL
- OMFDLL2.DLL
- OMF.HLP

The book *Online Message Facility User's Guide*, BK6A6012, is located in the BK60BK04 bookshelf on the CD-ROM.

Installation Instructions

- 1** Go to an OS/2 command prompt.
- 2** Switch to the drive letter of the CD-ROM that contains the Online Message Facility.
For example, if your CD-ROM drive is D, type
d:
d:
- 3** Change to the directory on the CD-ROM that contains the Online Message Facility. Type:
cd \OMF
- 4** To start the Online Message Facility installation program, type:
install
- 5** On the panel that is displayed, verify the target directory where the OMF will be installed.
The target directory defaults to C:\OMF, although this may be changed. Also verify that the

configuration file is correct. After you are satisfied with the fields on the panel, select the Install button.

- 6 When the installation program is done, the instructions on the screen will tell you if you need to shutdown and restart your system,

MPT Files

For a book to be used with the Online Message Facility, a message parsing template must exist for the book. The following message parsing template files are shipped in the MPT directory on CD-ROM Disc 1, Disc 2 and Disc 3.

ICNM3000.MPT	NCP V5R4, SSP V3R6, EP R9 Messages and Codes
ICNM3100.MPT	NCP V6R1, SSP V3R7, EP R10 Messages and Codes
ICNM3200.MPT	NCP V6R2, SSP V3R8, EP R11 Messages and Codes
ICNM3300.MPT	NCP V6R3, SSP V3R9, EP R11 Messages and Codes
HQV3M000.MPT	NetView DM R3 Messages and Codes
HQV3M101.MPT	NetView DM R4 Messages and Codes
HQV3M200.MPT	NetView DM R5 Messages and Codes
CNMYM101.MPT	NetView V2R3 Messages and Codes
FNMM4100.MPT	NPM R6 Messages and Codes
FNMM4200.MPT	NPM V2 Messages and Codes
EZAM3200.MPT	TCP/IP for MVS V2R2.1 Messages and Codes
LTUM3100.MPT	TCP/IP for VM V2R2 Messages and Codes
ITPMC102.MPT	TPNS V3R3 Messages and Codes
ISTM3002.MPT	VTAM V3R4.1 Messages and Codes
ISTM3100.MPT	VTAM V4R1 Messages and Codes

To install the Message Parsing Template files, decide which Messages and Codes books you want to use with the Online Message Facility. Copy the .MPT files for each of these books to the same directory as the corresponding book (.BOO) files.

Installing Estimating Storage for VTAM (Disc 1)

Estimating Storage for VTAM (storage estimates) is an OS/2-based program that helps you estimate virtual storage requirements for the VTAM program. The storage estimates program shows you how different values that you enter can affect your storage.

System Requirements

To use the storage estimates diskette, you need the following equipment and software:

- Personal computer capable of running OS/2 with a fixed disk with least 1 megabyte of available storage space.
- 6 megabytes of available memory.
- For V4R1, OS/2 Extended Edition version 1.3 or higher.
- For V4R2 and V4R3, OS/2 Version 2.1 or higher.
- VGA or higher monitor.

The following equipment is optional:

- Terminal emulator with download capability, if you want to use host-generated data files.
- Mouse
- OS/2-supported printer.

Storage Estimates Files

VTAM V4R1

Estimating Storage for VTAM V4R1 consists of the following files:

- NNL0STOR.EXE
- NNL0STOR.HLP
- NNL0IBML.DLL
- NNL0DLGP.DLL
- NNL0DRCP.DLL
- NNL0INST.CMD

| The book *Using Estimating Storage for VTAM V4R1*, BK3E8000, is located in the IST0BK12
| bookshelf on CD-ROM Disc 1.

| General Purpose Installation Files

| The following files are used for installing VTAM V4R2 and later:

- | • INSTALL.EXE
- | • INSTALL.IN_
- | • STORCD.ICF

VTAM V4R2

Estimating Storage for VTAM V4R2 consists of the following files:

- | • STOR42V.DSC
- | • STOR42V.ICF
- | • STOR42V.PKG
- | • STOR42V.LS@

| The book *Using Estimating Storage for VTAM V4R2*, ISTE8000, is located in the IST0BK13
| bookshelf on CD-ROM Disc 1.

VTAM V4R3

Estimating Storage for VTAM V4R3 consists of the following files:

- | • STOR43.DSC
- | • STOR43.ICF
- | • STOR43.PKG
- | • STOR43.LS@

| The book *Using Estimating Storage for VTAM V4R3*, ISTE8002, is located in the IST0BK14
| bookshelf on CD-ROM Disc 1.

Installation Instructions

For VTAM V4R1

- 1** Insert CD-ROM Disc 1 into your CD-ROM reader.
- 2** Go to an OS/2 command prompt.
- 3** Create a directory on your fixed disk to install *Estimating Storage for VTAM*.
MD \STOREST
- 4** Make this directory the current directory.
CD \STOREST
- 5** Type the following commands to install *Estimating Storage for VTAM* for VR41:

```
COPY cdromdrive:\STOREST\NNL0*.*  
NNL0INST
```

where cdromdrive is the drive letter where your CD-ROM drive is located.

Note: Make sure the DLL files are in a directory that can be located by your LIBPATH statement. For further directions, see the user's guide for the program.

For VTAM V4R2 and Later

- 1** Insert CD-ROM Disc 1 into your CD-ROM reader.
 - 2** Open an OS/2 command prompt and set the current drive to be your CD-ROM drive.
 - 3** Set the current directory to be \STOREST (the directory on the CD-ROM disc which contains the files)
 - 4** Type INSTALL and follow the instructions on the panel.
- Note:** Make sure the DLL files are in a directory that can be located by your LIBPATH statement. For further directions, see the user's guide for the program.

Installing the Previews (Disc 1)

Step 1: Start Windows

If you have not already done so, start Windows or WIN-OS/2. Windows users: Type WIN at the DOS prompt. OS/2 users: First, double-click on the OS/2 System Folder, then double-click on the Command Prompts folder, and finally double-click on the WIN-OS/2 Full Screen icon.

Step 2: Install the Previews

1. From Program Manager, open the File pull-down menu.
2. Select Run.
3. Enter x:\PREVIEWS\TBOOK SETUP from the Command Line, where x: is the drive letter of your CD-ROM drive.
4. Select the previews you want to install (or if you want, choose Select All Previews), and then select Continue Installation.
5. Select Complete Installation to use the default drive letter for your CD-ROM. Otherwise, enter an alternate letter and then select Complete Installation.
6. A new program group with an icon(s) for the IBM preview(s) will appear. The Preview Installation (CD-ROM) dialog box will be displayed, saying "Installation is complete." Select Exit Installation.

Step 3: Run the Previews

You can start a preview by double-clicking on the preview's icon.

After using the IBM preview, complete the reader comment form that your IBM representative included. You can return the form by FAX, e-mail, or land mail using the information listed on the form.

Questions, Problems, or Suggestions?

If you have a question, problem, or suggestion regarding the use of this CD-ROM or the information contained on it, please do one of the following:

- Within the United States, contact the IBM Support Center, 1+800+237-5511. Be prepared to provide your customer number (access code) and state either the product identifier "Softcopy Publications" or ask for the SCKIT service queue. Non-U.S. customers should contact IBM through their usual service channel.
- FAX your comments to IBM (United States and Canada): 1-800-227-5088
- Mail your comments to:
IBM Corporation
Department CGMD/Building 500
P. O. Box 12195
Research Triangle Park, NC 27709-2195
- Print a reader's comment form from a softcopy book on this CD-ROM and FAX or mail it to IBM.

The electronic systems you can use and the ID's to send your comments to are:

IBM Mail Exchange	USIB2HPD at IBMMAIL
IBM Link	CIBMORCF at RALVM13
Internet	USIB2HPD@VNET.IBM.COM

When sending your comment, please reference the CD-ROM's order number (SK2T-6012-13), and if you would like a reply, include your name and address, and your phone or FAX number. IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.
